

# M5015 Light Volume Pressure Sealer

Pressure Sealing is the process of folding and sealing single page continuous or cut sheet forms to produce secure, confidential documents that are ready for issue.

Pressure sealing eliminates the need for enveloping and insertion and dramatically improves the efficiency of your document processing.

**WE INNOVATE.**

And our solutions  
break new ground.

# M5015 Light Volume Pressure Sealer

Forms are printed to your specification, with a range of fold options to suit your software and application requirements. The M5015 light volume Pressure Sealer is a simple to operate and flexible machine capable of processing up to 1,500 documents an hour.

It is designed for easy use with just a single start/stop control and all parts of the machine readily accessible. In addition to the 150 form in-feed hopper for automatic folding and sealing the M5015 incorporates a 'Jog Reverse' feature.

### Payslips
