

M5050 Light To Medium Volume Pressure Sealer

Pressure Sealing is the process of folding and sealing single page continuous or cut sheet forms to produce secure, confidential documents that are ready for issue.

Pressure sealing eliminates the need for enveloping and insertion and dramatically improves the efficiency of your document processing.

WE INNOVATE.

And our solutions
break new ground.

M5050 Light To Medium Volume Pressure Sealer

Forms are printed to your specification, with a range of fold options to suit your software and application requirements. The M5050 light to medium duty Pressure Sealer is a simple to operate and flexible machine capable of processing up to 5,000 documents an hour. It has many features you would only expect to see on a high volume sealer and is ideal for use in an office environment.
