

M5180 Medium to Heavy Volume Pressure Sealer

Pressure Sealing is the process of folding and sealing single page continuous or cut sheet forms to produce secure, confidential documents that are ready for issue.

Pressure sealing eliminates the need for enveloping and insertion and dramatically improves the efficiency of your document processing.

WE INNOVATE.

And our solutions
break new ground.

M5180 Medium to Heavy Volume Pressure Sealer

Forms are printed to your specification, with a range of fold options to suit your software and application requirements. The M5180 Pressure Sealer is a medium to heavy volume machine capable of processing up to 18,000 documents an hour. It has a 500 sheet capacity bottom feed input and is supplied complete with a continuous outfeed conveyor stacker.
